

Ohio

\$938,365

Funding for AR Activities
Fiscal Year 2025

Funding to Health Departments

\$391,015

Fighting AR in Health Care: State, territory, and local public health partners prevent HAIs, support rapid detection and response, and improve antibiotic use.

CDC-funded HAI/AR Programs form a network of health departments that prevent, respond to, and contain HAI/AR threats and promote appropriate use of antibiotics. HAI/AR Programs protect patients and healthcare personnel, improve healthcare safety and quality, and use data-driven prevention strategies to combat AR threats in health care. Learn more: www.cdc.gov/healthcare-associated-infections/programs/index.html

\$197,350

Food Safety Projects protect communities by rapidly identifying antimicrobial-resistant foodborne bacteria to stop and solve outbreaks and improve prevention.

Ohio uses whole genome sequencing to track local outbreaks of *Salmonella*, *Campylobacter*, *Shigella*, and *Escherichia coli*, identifies AR genes, and shares surveillance data with PulseNet. When outbreaks are detected, local CDC-supported epidemiologists respond to stop their spread. Learn more: www.cdc.gov/food-safety/foods/antimicrobial-resistance.html

Funding to Universities & Healthcare Partners

\$350,000

The Ohio State University: Global Expertise & Capacity Enhancements

CDC's global work to combat AR helps prevent the importation of AR threats into the United States. Experts work in Ethiopia as part of the Global Action in Healthcare Network (GAIHN), developing a network to address emerging infectious disease threats in healthcare facilities through rapid detection and collaborative surveillance, prevention, and response. GAIHN addresses AR in health care as part of CDC's Global AR Lab and Response Network. Learn more: www.cdc.gov/international-infection-control/hcp/about/gaihn-ar.html

The AR Investment Map includes data from CDC's largest funding categories for AR. It represents extramural funding that supports AR activities from multiple funding lines in CDC's appropriations.

AR: antimicrobial resistance
HAI: healthcare-associated infection
IPC: infection prevention and control

NHSN: National Healthcare Safety Network
STI: sexually transmitted infection

CDC provides critical support to protect people from antimicrobial resistance.
